Teach your students about the life cycles of plants, insects, and other creatures with these informative programs. Learn about the different parts of a seed and how a plant grows. Discover the life cycle of insects and the ecosystems found within McHenry County. Explore the safety topics concerning bicycles, boats, and trails. And learn about the duties and roles of a Conservation Police Officer. Contact Kim Compton or Amber Ross for more information. Contact Valerie Coduto or Elizabeth Mays for more information. Contact Aimee Collins for more information.
