Spring Scavenger Hunt

Search out all the treasures of spring!

As the days grow longer and weather warms, we can tell that it is spring! Print out the scavenger hunt or view it on your phone or tablet. Head outside, or look out from your window and see how many signs of spring you can spot. Spring in the Northern Hemisphere lasts from the end of March to the end of June, so keep this scavenger hunt and return to it throughout the season as new signs appear.
